Subject:[REDACTED] Testing Trials I

OVERVIEW

The following documents the trials run on willing participants in the chemical [REDACTED]'s tests. There were five participants in the initial tests; further testing may be required. They were promised 10k USD if they took the “experimental drug”, commonly known in IntegraLab facilities as [REDACTED]. They signed a contract and a nondisclosure agreement.

SUBJECTS

Subject 1:

- Name: Noah Jenkins
- Gender: Male
- Age: 62
- Occupation: Software Developer
- Health: History of heart attacks and unspecified hereditary disorders • Exposure Details: Fed pill containing [REDACTED] in a controlled lab environment.
- Outcome: Fell into a coma within 5 minutes of exposure

Subject 2:

- Name: Emily Smith
- Gender: Female
- Age: 28
- Occupation: Nurse
- Health: Excellent, regular exercise and balanced diet
- Exposure Details: Substance applied to a scrape on the knee in the hospital facility
- Outcome: Subject reported feeling fine until coma onset approx. 10 minutes after exposure.

Subject 3:

- Name: Michael Brown
- Gender: Male

- Age: 45
- Occupation: Construction Worker
- Health: Good, occasional smoker, no major health issues
- Exposure Details: Minor cut on the hand treated with [REDACTED] at a construction site.
- Outcome: Mentioned feeling ill before entering a coma approximately 7 minutes after exposure.

Subject 4:

- Name: Sarah Johnson
- Gender: Female
- Age: 22
- Occupation: College Student
- Health: Good, minor asthma managed with medication
- Exposure Details: Paper cut on finger, [REDACTED] applied in a university library.
- Outcome: Coma induced within approximately 4 minutes of exposure, minor complications occurred and body was unable to be kept in an IntegraLab Inc. medical facility.

Subject 5:

- Name: David Lee
- Gender: Male
- Age: 30
- Occupation: Research Assistant
- Health: Good, participates in triathlons and multiple sports however they had influenza at time of testing
- Exposure Details: Tested in a remote location with no electricity. Fed pill lightly coated in [REDACTED].
- Outcome: No adverse effects observed; subject remained conscious and alert. 30 minutes after exposure he claimed to feel better, testing showed he was no longer suffering from influenza. Paid the promised 10k USD as promised in the contract signed.
